

The National Weather Service Announces the Kona Aviation Users Training Seminar on the Big Island

The National Oceanic and Atmospheric Administration (NOAA), National Weather Service in Honolulu cordially invites interested parties to participate in an Aviation Users Training Seminar that will be held in Kona on the Big Island of Hawaii on August 17, 2006. Back by demand...the seminar will cover much of the same material presented in similar seminars held earlier this year on the Big Island.

Speaker: Raymond Tanabe Meteorologist, Aviation Program Leader
Weather Forecast Office Honolulu

Topics: National Weather Service Aviation Products and Services
Basic Weather Patterns in Hawaii and on the Big Island
Turbulence around the Hawaiian Islands
The Basics of Weather Radar

August 17th, 2006 7:15 pm to 9:15 pm
Mauna Loa Helicopters
73-310 U'u ST
Kailua Kona, HI 96740

Mauna Loa Helicopters is located at the Kona Airport. They occupy the last building in the general aviation area at the south end of the airport closest to the ramp. Parking is available at the south end of the airport right in front of the school. Snacks and refreshments will be provided.

We ran out of chairs back in April, so this time...we are making every attempt to get more. However, you are encouraged to bring you own chairs just in case. To reserve a spot or for more information, RSVP to Raymond Tanabe at w-hfo.aviation@noaa.gov or (808) 973-5277. Please include contact information. Aloha.
